For our January Family Project, children will work with their families to create a paper snowman using various objects. They may want to make a snowdad, a snowmom, a baby snowman, a snowcat, etc. Will your snowman have a scarf, eyes, nose, mouth, ears, hat, arms, etc.? Your family gets to decide! Begin by helping your child cut out the attached snowman... and then get started!

What types of objects could your family use? How about stamps, scrapbooking items, ribbons, string, buttons, beads, bottle caps, plastic forks, sticks, jewelry, etc. Whatever you find!

For extra winter fun, why not build a real snowman outside! (If we get snow over Winter Break) Have your child draw a picture of it or take a photo if you would like. Students will share their Snowman Family Project with the class and they will be on display on our class bulletin board.

Have fun and stay warm!

Your Kindergarten Teachers
