For the March family project the students will **design a rainbow**.

For the rainbow, use the attached rainbow and be as creative or imaginative for each arc of color as you'd like. You can use many different items for the arc colors such as yarn, cloth, magazine pictures, beads, markers, etc. Encourage your child to offer their ideas, cut, color, and glue so they will be involved in the process.

**March Family Project**

**Due:**
February 28th, 2011

**Happy St. Patrick's Day**
